Training and Placement Cell of **Dr. S. & S. Ghandhy Government Engineering College, Surat** organized a webinar under **ISTE Students' Chapter** on **"Fearless Life Personality Development"** on 05.01.2020 by **Mr. Sanjay Raval (Entrepreneur, Motivational Speaker, Revolutionary Educationist & Author)**

Mr. Sanjay Raval started with the topic of personality and guided the students that how they can live their life without fear. Another great point in his speech was how to remove negativity from our life and become free from depressions. He discussed about suicides of students due to failure in education or in personal relationships, and solve this type of problems of students by giving best examples. Our world's current situation of pandemic is also very tough for all of us, but in also that he find the positivity, like due to lock down people spends their lot of time with their family. He also discussed on Geeta and explain that how our life and the problems of life are connected with it. If the things which we want to be happen is happened then we are happy and, if it doesn't then God happy. This kind of lines give very motivation to the students. Our freedom is only our right and don't let anyone to take this right and we also can't control anyone's freedom. Your attitude towards other is your key to live your life. All people talk about success but no one discussed about what is we fail? So this the main problem.
