DGGE, Surat**

Training and Placement Cell of **Dr. S. & S. Ghandhy Government Engineering College, Surat** jointly organized a webinar with **ISTE Students' Chapter** on **"Creating Industry Ready Engineers"** on 15.02.2021 by **Prof. (Dr.) Shitalkumar Rawandale**

He started with the India's Education System and discussed that most of expenditure of govt. for education is spending on IIT, NIT and IIM in which only 3% of total students are studying.

Industry's plays very important role in our country's GDP, due to covid our GDP lay down to 2.1 from 6 so from that we can conclude that industry are facing some problem due to pandemic. The competition to getting job become very tough nowadays. Industries need students having great technical skills as well as good communication skills and also have good aptitude. If student has experience of internship before job then it is very useful to getting job. Problem solving and skill of management plays very important role to be selected in any industry. Institute should make students to focus on GATE,CAT like competitive exams to broad their career lines. He also provided some websites, list of books, & apps for aptitude.

Training and Placement
