By considering the need for an hour in 21st Century Professional Spectrum, **Training and Placement Cell of Dr. S. & S. Ghandhy Government Engineering College, Surat & ISTE Students' Chapter** jointly organized a webinar on 'Future of Work' on **July 23, 2021**, for final & pre-final year students. **Prof. (Dr.) Vikas Singh, Vice Chancellor, ITM University, Raipur was the expert for the session.** With the ongoing concern over the COVID-19 pandemic, companies across the globe are hustling to virtualize businesses and are pushing the envelope in terms of the workplace of the future. Even as companies explore and experiment with newer models, the shift towards a digital workplace is inevitable. This shift will be centered around 5 key outcomes – **employee experience, business excellence, innovation, compliance and cost arbitrage.**

Key Focus Areas:

- What will the 'Future of Work' look like?
- What digital tools are available to enable the modern workplace?
- How can companies manage change and enable seamless transition?
- What metrics should companies track and ensure alignment to business outcomes?
